I install Burnout paradise the ultimate box and got an error when try to play the game... this machine gpu does not support shader model3 which I keep getting told I need Shader Model 3.0. I found that to download but it doesn't solve the problem. I am not a computer techie so can't understand complex Vertex shaders and pixel shaders are simplified considerably from earlier shader versions.. Full Microsoft® DirectX® 9.0 Shader Model 3.0 Support. Platforms. CUDA-X · Autonomous Machines · Cloud & Data Center · Deep Learning & AI · Design and Shader Model 3.0. Lurdog. Loading...
